| <b>TeamID</b>      | PNT2022TMID51172                                     |
| <b>ProjectName</b> | Signs with Smart Connectivity for Better Road Safety |

The screenshot shows the 'Browse Devices' interface in the Azure IoT Hub portal. The top navigation bar includes links for 'Browse', 'Action', 'Device Types', and 'Interfaces'. An 'Add Device' button is located in the top right corner. On the left sidebar, there are icons for various management tasks. The main heading is 'Browse Devices', followed by two tabs: 'All Devices' (selected) and 'Diagnose'. A descriptive paragraph states: 'This table shows a summary of all devices that have been added. It can be filtered, organized, and searched on using different criteria. To get started, you can add devices by using the Add Device button, or by using API.' Below this is a search bar labeled 'Search by Device ID' and a 'Device Simulator' toggle switch. The central part of the screen contains a table with one device listed. At the bottom, there's pagination information showing '1 of 1 item'.

|   | Device ID                     | Status       | Device Type | Class ID | Date Added           |
|---|-------------------------------|--------------|-------------|----------|----------------------|
| > | <input type="checkbox"/> 4054 | Disconnected | Sample_one  | Device   | Nov 7, 2022 10:15 PM |
